DETAILED ACTION

Claim Objections

1. Claims 8-12 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from another multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 8-12 have not been further treated on the merits.
2. Claim 1 is objected to because of the following informalities: Claim 1 recites “such chains” without proper antecedent basis. Appropriate correction is required.

Claim Rejections - 35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 2 and 5-7 are rejected under 35 U.S.C. 102(b) as being anticipated by SE 459,267 to **Lundin**.

Lundin discloses a pipe of varying length including half-cylinder shaped elements hinged to each other and two of these elements are oriented with their

concave sides connected in a zipper-like motion and are locked to each other with the intention of prevention of the pipes coming a part under a load, as recited in claim 1. Fig. 6 discloses the two half-cylinder shaped portions being individually rolled up into two spools (7 & 8), as recited in claim 2. Figs. 5 and 6 disclose the halves including smooth surfaces whereby rollers (9 and 10) are pressed against the elements and drive the pipe out of the housing (6) with the help of friction, as recited in claim 5. Figs. 6 and 7 also disclose the housing including a guide (15) to force the halves in a zipper-like motion, as recited in claim 7.

Allowable Subject Matter

4. Claims 3 and 4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
